EXPERIENCE

Short 'Tommy's - Who's Counting' dop: Thomas Hole | Lighting Trainee Aug. 2021

Working with excellent Gaffers was a great learning experience, especially working with higher calibre kit that I haven't got to operate before. I enjoyed making myself useful by preempting, managing the truck, preparing frames and setting up lights.

Graduation Short 'Jam' dir. Crystal Leaity | Gaffer April 2021

Matching the social realist style, the film was lit mostly with an HMI and with LED fixtures emulating Sodium Vapour from outside the windows. Occasionally, we would use flags and 1x1 panels to subtly supplement the light.

Student Music Video 'Akiko Haruna - Raw' | Gaffer December 2020

On this shoot in Brighton's massive Bartholomew's church, I could demonstrate my ability to improvise as the shoot had to be lit with location lighting as well as one 2K Fresnel and two 85W CFL bulbs in Chinese lanterns to get exposure at night.

Student Short 'Please Wash Your Hands' dir. J. v. Lieshout | Gaffer January 2020

This film about being stuck in a bathroom desired the bathroom to be unpleasant. I simulated cool-white fluorescent toplight by placing a KinoFlo Freestyle above the actor on an arm off of a combo stand which was filled in with another Kino.
